4. First aid measures

4.1. Description of first aid measures

General

In all cases of doubt, or when symptoms persist, seek medical attention.
Never give anything by mouth to an unconscious person.

Inhalation

Remove to fresh air, keep patient warm and at rest. If breathing is irregular or stopped, give artificial respiration. If unconscious place in the recovery position and obtain immediate medical attention. Give nothing by mouth.

Eyes

Irrigate copiously with clean water for at least 15 minutes, holding the eyelids apart and seek medical attention.

Skin

Wash with soap and water. Remove contaminated clothing. If irritation persists, get medical attention.

Ingestion

If swallowed obtain immediate medical attention. Induce vomiting if conscious.

4.2. Most important symptoms and effects, both acute and delayed

Overview

Eye Contact: Irritating to eyes.

Skin Contact: Product is mildly irritating to the skin, and may be toxic if absorbed through the skin.

Inhalation: Vapors may cause irritation to the nose, throat, and respiratory tract.

Ingestion: Moderately toxic if ingested.

Exposure to solvent vapor concentrations from the component solvents in excess of the stated occupational exposure limits may result in adverse health effects such as mucous membrane and respiratory system irritation and adverse effects on the kidneys, liver and central nervous system. Symptoms include headache, nausea, dizziness, fatigue, muscular weakness, drowsiness and in extreme cases, loss of consciousness.

Repeated or prolonged contact with the preparation may cause removal of natural fat from the skin resulting in dryness, irritation and possible non-allergic contact dermatitis. Solvents
